EXPLANATORY NOTE

This part of Volume II of the Report on the Census of Land Holdings in Hyderabad State gives Table pertaining to the Karnatak Region of the State comprising the following areas:—

1. Gulbarga District, excluding Kodangal and Tandur Taluqs.
2. Raichur District, excluding Alampur and Gadwal Taluqs.
3. Bidar, Humnabad, Bhalki and Santpur (Aurad) Taluqs of Bidar District.

A map of Hyderabad State showing the three Regions is at page XI

For a detailed description of the objectives, and organisation of the Census and a discussion of its results, the reader is requested to refer to Vol. I of the Report.

A brief explanation of the terms used in the headings of different Tables is given below.

- (1) Tables 1 to 4: Columns 3, 4 and 5.

Village.— Village means a Revenue Village for which separate Revenue or Settlement Records are maintained.

- (2) Tables 1 to 4: Columns 6 and 7.

Government Land.—Government Land means, Land which is not held by any person as patta or Ina Land. It may or may not be set apart for a public purpose and may in some cases be leased out for cultivation on a temporary basis.

- (3) Tables 5 to 8: Column 3.

Survey Number.— It is the serial number given to each individual field in the survey Map, or Shethw Register of the village.

- (4) Tables 5 to 8: Column 4.

Hissa.— A hissa is a portion of a survey number held by a person under a distinct ownership right. may consist of one or more bits within the survey number.

- (5) Tables 5 to 8: Col. 5 and Tables 9 to 12: Col. 12.

Ownership Holding.—An Ownership Holdings consists of all plots of land, located within a village, held by a person with rights of ownership, i.e., with rights of permanent heritable possession. Such rights may have been acquired by purchase under a registered or unregistered document, by succession, partition, agreement or otherwise. An ownership holding comprises of the land cultivated by the owner himself and the land leased out by him to tenants for cultivation.

- (6) Tables 5 to 8: Col. 8.

Non-Residential Owners.—Owners who do not reside in the village in which they own land are Non-Residential Owners.

- (7) Tables 9 to 12: Col. 3.

The figures in this column denote the number of Ownership Holdings in which all plots of land are under the personal cultivation of the Owner. Personal cultivation means cultivation on one's own account (1) by one's own labour, or (2) by the labour of any member of one's family or, (3) by servant.

payable in cash or kind, but not in crop share or, by hired labour under ones personal supervision or personal supervision of any member of ones family.

(8) Tables 9 to 12: Col. 6.

figures in this column denote the number of Ownership Holdings in which all plots of land owned are let out to tenants.

(9) Tables 9 to 12: Col. 9.

figures in this column denote Ownership Holdings in which some of the plots in the Ownership Holdings are under personal cultivation of the owners and others are leased out to tenants.

(10) Tables 13 to 16: Col. 12.

Cultivation Holding.—A Cultivation Holding consists of plots of land, cultivated by an individual in a holding whether they are owned by him or taken on lease from other owners or from Government.

(11) Tables 13 to 16: Col. 3.

figures in this column denote the number of cultivation holdings, in which all plots, comprising the holding, are cultivated by the person who owns them.

(12) Tables 13 to 16: Col. 6.

figures in this column denote the number of cultivation holdings, in which all plots comprising the holding are taken on lease by the person cultivating them.

(13) Tables 13 to 16: Col. 9.

figures in this column denote the number of cultivation holdings in which some of the plots comprising the holding are cultivated by the person who owns them and the remaining plots are taken on lease by others.

(14) Tables	1 to 4	Columns	6 to 14.
do	5 to 8	do	6, 7, 9, 10, 12 and 13.
do	9 to 12 13 to 16	do	4, 5, 7, 8, 10, 11, 13 and 14.
do	17 to 20	do	3 to 20.
do	21 to 28 29 to 44	do	2, 5 and 7.
do	29 to 36	do	2 and 4.

Simple acres and converted dry acres.—Except in the Tables pertaining to the Distribution of holdings according to size groups, the area figures in all other Tables are given separately in simple acres and converted dry acres. The area in simple acres denotes the actual geographical area of wet land or Bagayat land or wet, dry and Bagayat lands added together, of a holding. The area in converted dry acres denotes the actual geographical area of dryland and or the area of "single crop wet land" or "double crop wet land" converted into equivalent dry acres on the basis of the proportion of the area of dry land to wet land determined as the "Family Holdings" for each Taluq or part of Taluq delimited as "Local area" by the State Government. A "Family Holding" represents the acreage which is expected to annually produce of the value of Rs. 800 after deducting fifty per cent, of the gross produce as cost of cultivation, according to price levels prevailing at the time of determination, i.e., this acreage is determined separately for "wet" and "dry" land taking into consideration soil fertility climatic conditions crops, cultivation practices, irrigation and other factors relating to production of crop in the local areas. In case of light irrigation under flow, an acre of land under light irrigation is equated to two acres of dry land. A converted dry acre is a comparable unit within a "Local area", or within local areas having same size of "Family Holding".

The following is the list of "Local areas" in the Karnatak Region along with the sizes of a "Family Holdings" for dry lands, single crop wet lands and double cropped wet lands, determined for each of them.

District	Taluk or part of Taluk (Local area)	Local area No.	SIZE OF FAMILY HOLDINGS		
			Dry land	Single crop land	Double crop wet land
1	2	3	4	5	6

3. Bidar	.. Bidar Taluq, Homnabad Taluq, Bhalki Taluq ..	.. III	30	9	6
	Santpur (Aurad) Taluq ..	.. IV	36	9	6

15. Tables 5 to 12 ownership holdings and Tables 13 to 16 Cultivation Holdings.

The figures for these Tables are compiled first from the village holding registers, in which the area owned area personally cultivated (by the owner), the area leased out and the area taken on lease, by an individual are separately recorded in simple and converted dry areas. The number of holdings and the area under them are then totalled for the village and the village totals are added with respect to each of the local area or Taluqa as the case may be. The holdings shown in these Tables include only such land which is owned and or cultivated by the holder within a village and do not include the land owned and or cultivated by him in other villages. These areas of holdings expressed in converted dry acres are therefore comparable within the Local area but not between the local areas in which the sizes of Family Holdings determined for them are different.

16. Tables 21, 23, etc., 29, 31, etc 37, 39, etc.

*Distribution of Ownership Holdings, Personal Cultivation Holdings, and Cultivation holdings classified according to size groups of area in converted dry acres :—*The total number of holdings, in a taluk or local area, classified in specified size groups of converted dry acres are presented in these tables with respect to Ownership Holdings, Personal cultivation (by owners) holdings and Cultivation Holdings separately. All plots of land owned and personally cultivated by the Owner, form a Personal Cultivation Holding. With regard to ownership Holdings, Personal Cultivation Holdings in these Tables, the unit of holding includes, all land held by an individual in different villages situated within a local area (Taluq or part of a Taluq), but does not include the land held

in villages situated outside the taluq or local area. For preparing these tables for each Local area a table of multiple Holdings *i.e.*, Holdings comprising land situated in more than one village within a local area, was first prepared for each local area and then the figures pertaining to different size groups in this table were added to the figures of corresponding size groups in the relevant local area tables which did not include the multiple holdings and their areas. In view of this, the districtwise total numbers of ownership holdings shown in these Tables are less than the numbers of ownership Holdings and personal cultivation holdings shown in the preceding Tables. In the case of cultivation Holdings, however, 'the Multiple' factor is not taken into consideration. The table pertaining to each district is compiled by totalling the figures in corresponding rows and columns of the tables relating to different Local areas in the concerned district. Regional and State Tables are prepared in the same manner by totalling the figures in the corresponding rows and columns of the District and Regional Tables respectively.

17. Tables 22, 24 etc. 30, 32, etc. 38, 40 etc.

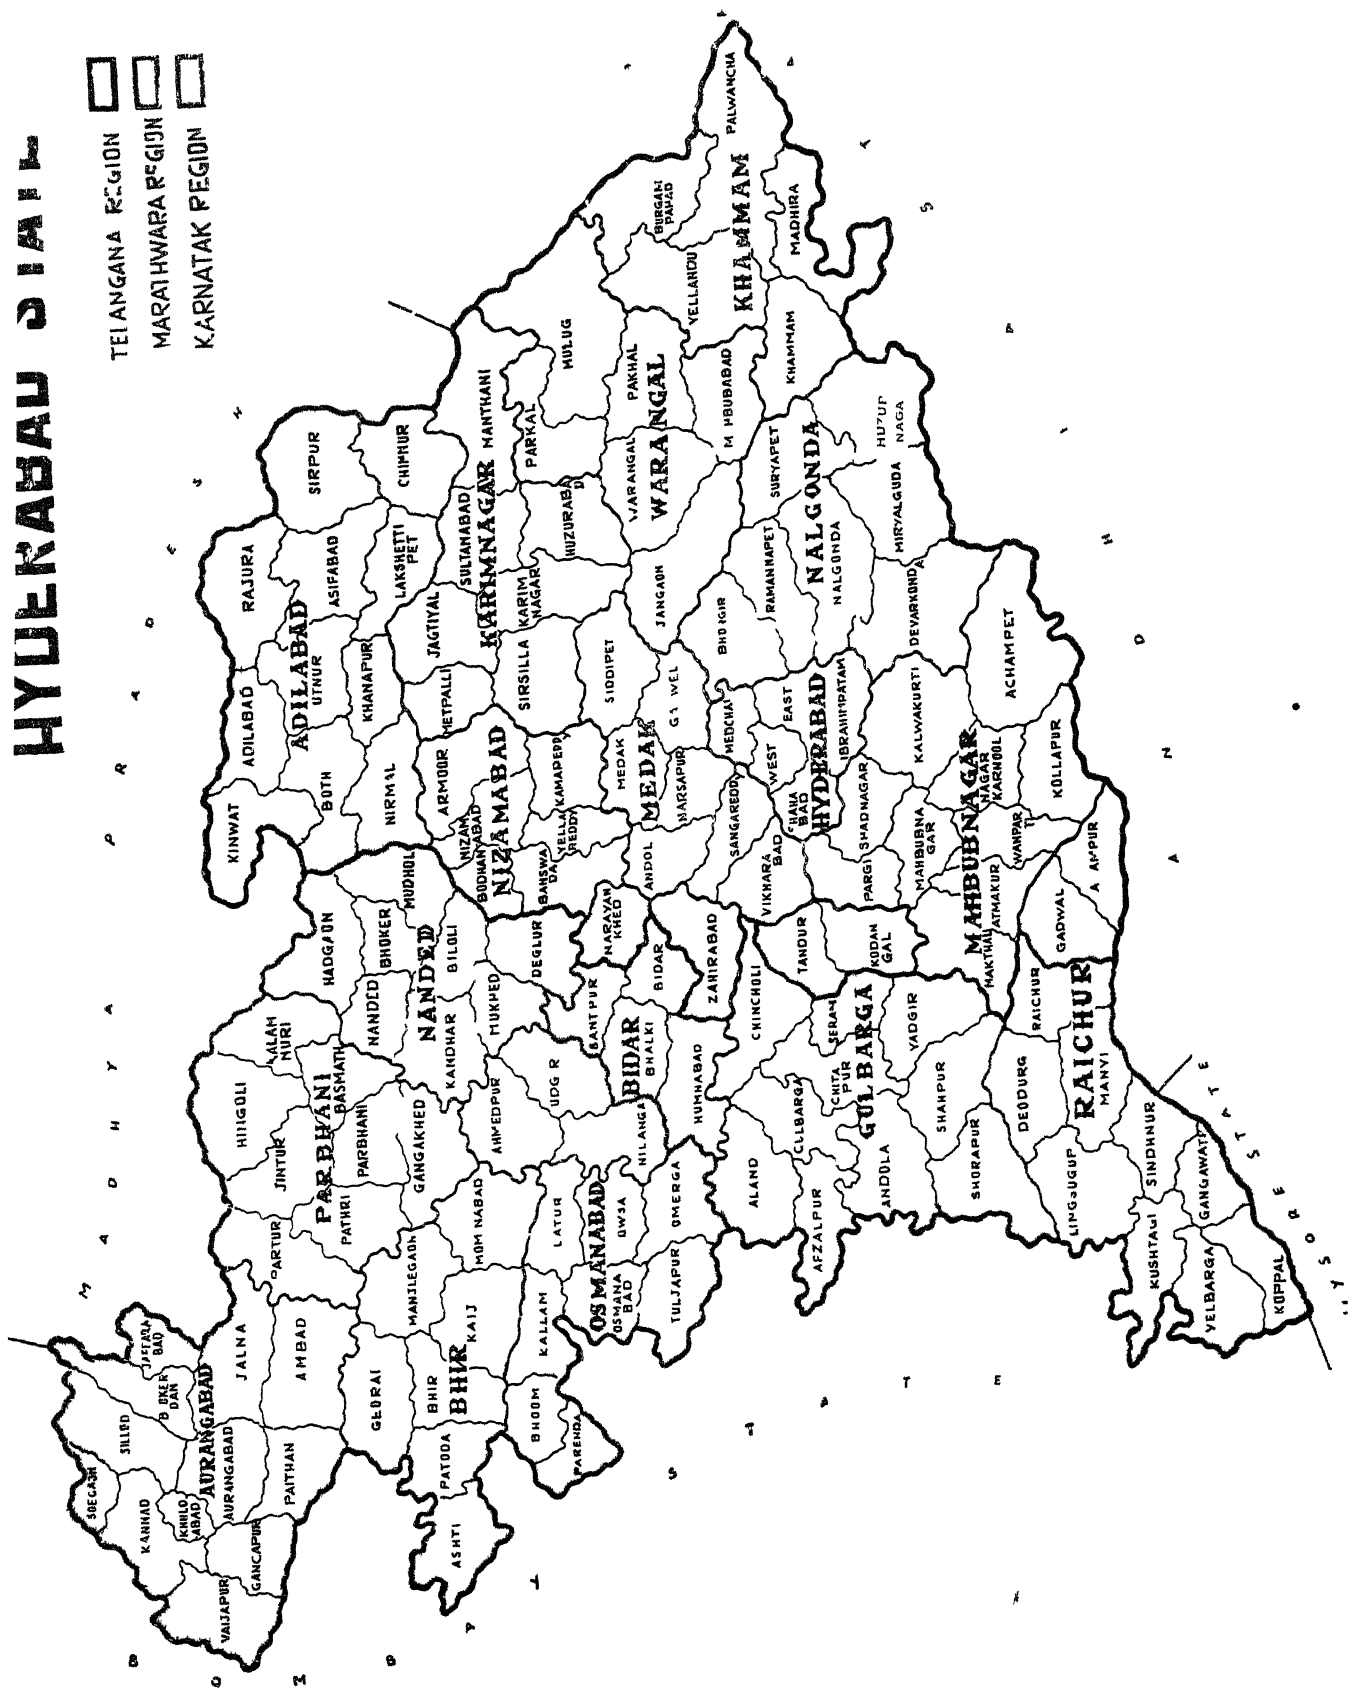

Distribution of Ownership Holdings, Personal Cultivation Holdings classified according to size groups of Family Holdings :—These tables are, first compiled for each Local area from the corresponding tables of distribution of Holdings classified according to converted dry acres. To get the exact number of holdings in a size group of family holding, it is necessary to express the area of each holding in units of family holdings, dividing the area of the holding by the area determined for the family holding in the local area in which the holding is situated and sorting out the holdings according to specified size groups of Family Holding viz., up to $\frac{1}{4}$ F.H. $\frac{1}{4}$ to $\frac{1}{2}$ Family Holding etc., This method of compilation involves enormous amount of calculation work in each village and Tahsil and is impossible within a short period. These tables are therefore compiled, first separately for each local area, by totalling the individual column figures in against the appropriate size groups which together correspond in area most approximately to the area of each specified size group of Family Holding. Thus for Shorapur Taluq, which is a local area having 36 acres as the size of Family Holding, the figures of size groups, up to 1. 1 to $2\frac{1}{2}$, $2\frac{1}{2}$ to 5. 5 to $7\frac{1}{2}$, $7\frac{1}{2}$ to 10 to $12\frac{1}{2}$ converted dry acres are totalled to get the figures for the size group; up to $\frac{1}{4}$ Family Holding. Similarly the figures of the size groups 12 $\frac{1}{2}$ to 15, 15 to $17\frac{1}{2}$, $17\frac{1}{2}$ to 20, 20 to 25 converted dry acres are added at the figures of size group $\frac{1}{4}$ to $\frac{1}{2}$ Family Holdings. For the size group, $\frac{3}{4}$ to 1 Family Holdings, the figures of size groups 25 to 30, 30 to 35 converted dry acres are added.

The Table pertaining to each district is, then prepared by totalling the figures in the corresponding rows and columns of the Tables of the different Local areas of the concerned district. As these size groups are in units of Family Holding the number of holdings and their area situated in different local areas and districts are comparable. The Regional and State Tables are prepared by totalling the relevant figures of a row and column of the District and Regional Tables respectively.

18. Tables 21 to 29, 37 to 44 column (4) and Tables 45 to 52.

Bit :—A bit is a part of a survey number or hissa held distinctly by an owner. If in an Ownership Holding or a Cultivation Holding, there are two separate survey numbers or hissass each is counted as bit irrespective of their being contiguous or not. If a survey number or hissa within a holding has one or more separate plots, a plot owned or cultivated by the same holder, then each plot is entered as a 'bit' with respect to the ownership or cultivation holding of that holder.
